Information about Brussels

Brussels, the capital of Belgium and Europe, is a dynamic city and rich in diversity. It is also one of the most cosmopolitan cities in the world. It is the economic and financial capital of the country. Brussels is usually regarded as a crossroads within Europe. In the city, different languages can be heard in the street. Brussels is one of the greenest capitals in Europe.

CURRENCY

Euro is the unit of currency.

The logos of the cards accepted are shown on the machine. Automatic Telling Machines can be found through the city.

Public transport

Tickets are sold on buses and trams, at STIB info centres, at newsagents (<http://www.stib-mivb.be/index.htm?l=en>) but also at metro and rail stations (at desk or MOBIB machines). There are metro, rail, buses and trams (www.stib.be / www.mivb.be) with tickets valid for any journey within an hour.

Taxis

In the meter fare, the tip is included.

Driving

Brussels has a tunnel system linking the major points of the city. The speed limit in Brussels is 30 km/h, 50 km/h. The speed limit on the motorways is 120 km/h.

CLIMATE

The average temperature in summer is $\pm 16^{\circ}$ Celsius. Brussels has a temperate, maritime climate.

ELECTRICITY

The electrical current is 220 volts (50Hz). The plug is a standard rounded 2 pin europlug. You will need an electrical transformer if your equipment requires different voltage.

LANGUAGE

There are two official languages in Brussels: French and Dutch.
